# Kick it ™

INSTRUCTIONS:

Peel clear protective film from the back

Gently press to center bottom edge of any phone or any case like so
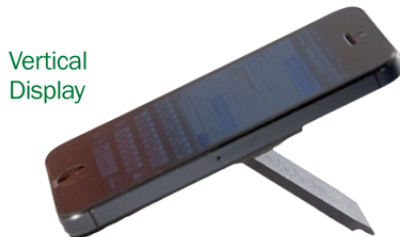

Lift tab with your thumb to open

The Kick it has 5 clickable positions to choose from so you can use your device at different angles.

Horizontal Display

Vertical Display

To remove, lift from one corner. Transfer to any device and leave no sticky mess.

To store, attach the included plastic backing to the back of the Kick it grip.

If your Kick it begins to lose grip strength:

1. Remove from phone.
2. Use your finger to rub warm water along the back of the grip.
3. MUST AIR DRY. Do Not use paper or cloth products to dry it.

GRIP PAD INSTRUCTIONS:

Peel protective film, press to any surface for 2-3 seconds, then gently press any item to grip pad for 2-3 seconds.

Cleaning: For max grip, rinse pad with warm water anytime it gets dirty. MUST AIR DRY. Do not dry with paper, cloth etc.

Do not leave in direct sunlight or extreme temperatures

Works best in temperatures of:-20c to 50c | -4f to 122f

Caution: Do not stick over airbags

* Adheres better to some surfaces. We recommend a phone case and protective screen film if you plan on hanging the phone high and over hard floors. *Just in case...*

The Kick it **GRIP PAD** is the ultimate anti-slip material made of Patented PU GEL technology that grips to **ANY SURFACE** & **ANY DEVICE**

Grips to any Phone, Small Tablet, GPS, mp3, Notebooks, Sunglasses, Pens, you name it....

Good for speaker phone, video chat, movies, games, charging, handsfree use and more

Non-Staining, Non-Toxic and Waterproof

USE IT IN YOUR CAR

Combine the Kick & Grip

For backseat use, slide in between headrest like so

Use the included mirror & color stickers to customize your Kick it.
